How Long Have You Been There

'4U' A Classic Rock Opera

Song 1 of 11

Written By Craig Colley

© 2021 Coliday Music

How long have you been there
Waiting for the time
How long have you been there
Waiting to shine

Upon me now
But it's funny because somehow
I've been waiting too
Waiting for someone
Someone like you

To open up my heart
And let the past depart

Although I'm very happy
I'm also afraid too (*afraid of losing you*)
I'm losing that someone (*that someone that's you*)
That someone that's you

But I don't
Fear it that much
Cause I can tell
By your gentle touch
That I am that someone to you
That you are to me

It's destiny
That we proceed

Solo

But I don't
Fear it that much
Cause I can tell
By your gentle touch
That I am that someone to you
That you are to me
It's destiny
That we proceed

Have You Seen The Light

'4U' A Classic Rock Opera

Song 2 of 11

Written By Craig Colley

© 2021 Coliday Music

Oh yeah, oh yeah
Have you seen the light on this cloudy night

Now that you have this feeling
This feeling inside of you
You know you will be dealing
With a side that's new

Cause when I first met you
I didn't realize
That what we have between us
Has always been disguised
But revealed through our eyes

Have you seen the light
Like I saw the light
Have you seen the light
On this cloudy night

Has it happened to you
Like it happened to me
Has it happened to you
Leaving wondering what to do

Now that you have this feeling
This feeling inside
And you just can't hide

But when you have this feeling
This feeling inside
And you just can't hide

Then you got to take this loving feeling
In your mind
In your mind
With the wine
Feeling fine
With the wine

Got to love a little bit on a Sunday afternoon
You got to love
It's never too soon
Cause if you do
You'll never have the blues

Have you seen the light
Like I saw the light
Have you seen the light
On this cloudy night

Always With Me

'4U' A Classic Rock Opera

Song 3 of 11

Written By Craig Colley

© 2021 Coliday Music

Got to have you baby
Always with me
Don't ever betray me
Just reassure me

That you'll never leave me
Never leave me alone
Because I love you

Too much to let go
Let go of someone I love so

You say my eyes are crazy
When I'm looking at you
My eyes can only reveal
What they feel for you

Your eyes tell me a story
A story of
You and me together

Together in love
Floating through heaven above

Solo

Together in love
Floating through heaven above

Mr. Nowhere

'4U' A Classic Rock Opera

Song 4 of 11

Written By Craig Colley

© 2021 Coliday Music

I've been searching
For quite some time now
To find what I found
And now that I found it
I feel profound

The search has been long
But it's worth my discovery
A total extremity
That the loads my pride and ego
To the highest degree

Now that Mr. nowhere
Knows where he's been
He knows where he's going

Now that Mr. nowhere
Has been through thick and thin
He knows where he's going
Where he's going
Where he's going

Your smile is as beautiful
As a summer sunset
Across the northern bay

Your eyes are like the waves on the water
Before the break of day

Now I have something
That I wanted
For quite some time

And now that I found it
I'll leave the past behind

Chorus

You're Still My Love

'4U' A Classic Rock Opera

Song 5 of 11

Written By Craig Colley

© 2021 Coliday Music

It seems were into trouble now
Well I can feel it
Like a light in the dark
I noticed the change

Although it was bewildered
I waited to ask you
If anything had changed
From yesterday

The look from your eyes
Trouble to me
I wondered why
Could it be
Your love for me
Was starting to die

This hurt deep inside
I felt rejected
For your silence was severe
But easily heard

Anxiety prevailed
Over the situation
I asking you what was wrong
And I finally learned

You said the routine in your life
Has got you down
But after we talked
I knew that our love
Was still around
And this we found

You're still my love, you're still my
love
When times get you down
Let me know
And will bring them up

You're still my love
I ain't no fool
To be misunderstanding
And to blow my cool

Solo

And now to make it better
To keep on going
And this task
Shouldn't be hard

As long as you're happy
Enjoying each other
The road of what we have
Will stretch very far

It took you sometime
To ease the pressure
From my mind

And like you said
You can't
Change the feelings
In your head
Just follow it instead

You're still my love, you're still my
love
When times get you down
Let me know
And will bring them up

You're still my love
I ain't no fool
To be misunderstanding
And to blow my cool

You're still my love

Until Your Present Is Your Past

'4U' A Classic Rock Opera

Song 6 of 11

Written By Craig Colley

© 2021 Coliday Music

You have the sunlight
In your heart
You can't be kept inside
Caged in the dark

You will be all right
When you were on your own
Finish it early
Make it and go

Anticipation
What tomorrow may bring
Such a strange thing

You look to the future (you look to the future)
Because your present
It is not yet past (present is not past)
May it go fast (may it go fast)

You must have patience
In waiting out this time of

Aggravation
(Until your present is your past)
Manipulation
(Until your present is your past)
Constant frustration
(Until your present is your past)
That you have

The door of freedom swings open
But you cannot enter

The next room
(Until your present is your past)
No blossoms will bloom
(Until your present is your past)
Til' you leave this gloom
(Until your present is your past)

May the time go fast

For You (4U)

'4U' A Classic Rock Opera

Song 7 of 11

Written By Craig Colley

© 2021 Coliday Music

When those fair winds came on that
winter's night
Along with it brought me
some new insight

For it struck upon me
How I was going nowhere
And that you really did care
For me

Now I am making some changes
And rearranging myself
So that I
Can proceed

For when I return again
I shall be ready
To make something
Out of me

Baby (baby - repeats)
Can't you see
I'm trying to find the real me
Cause that's what I want to be

Why can't things ever
Stay the same
Why are they always under
unpredictable
Constant change

Do you remember
when we were new
Our moments were fresh
exciting adventurous too

Everyday was a new challenge
But now everything is out of balance

Baby (baby - repeats)
Can't you see
I want you more than before
So I won't have to sing the blues
anymore

Even in times
When I start to unwind
And my love is in bloom
am I some kind of loon

For loving such a one
Who has shown me so much fun
And the happiness I desire
You always bring me higher
Ooh...

I can't understand at all
When it times that I call
It's like we're speaking through a wall
But I still try and stand tall

I've had enough
And I'm tired of being tough
So I'm aiding myself
Through the love of God's help

I throw it away
But then I'd have to say
That I failed you
It's something I'd never do
(I'd never do)

Solo

Now my life has come to a point
My thoughts are all out of joint
I've got to pull myself together
And have the will to prosper for the
better

I play what I play
And sing what I sing
I say what I say
Just to show
How I care
For you...

As Long As You Are Mine

'4U' A Classic Rock Opera

Song 8 of 11

Written By Craig Colley

© 2021 Coliday Music

I'm on the road with the past behind me
Day after day the thought of you
Will be upon me

For your heart says for me to stay
But your head says to go away
And to find that peace of mind
That I need

Although I wonder
What I'm going after
Just what it is
That I'm trying to capture

But am I leaving here too soon
While our love is blossoming into bloom

Because I know that you're there
And I know that you're fine
And I know that you'll be there
Just as long as you are mine

I know that you're there
And I know that you're fine
And know that you'll be there
Just as long as you are mine

Although the heart
And head have two different feelings
From our very start
What has made you so appealing

To this soul
Who will never let you go
And this person
That you have come to know

Chorus

I'm on the road with the past behind me
Day after day
The thought of you will be upon me

Chorus

I Miss You

'4U' A Classic Rock Opera

Song 9 of 11

Written By Craig Colley

© 2021 Coliday Music

Ooo... child how you mold my moods
Looking around
I got a move
But I know
I still love you

Baby it's you I've got on my mind
Thinking of you
Helps me
Pass the time

For when we
Can escape
From this lock of life
That we live today

What do you think about it
Can you see
What is happening to me

What do you think about it
Can you see
what it's doing to me

Walking down the lonely streets of my life
Walking down the lonely streets
And feeling so sad

What do you think about it
Can you see
What is happening to me

What do you think about it
Can you see
what it's doing to me

Walking down the lonely streets of my life
Walking down the lonely streets
And feeling so sad

I miss you

We Can Make It

'4U' A Classic Rock Opera

Song 10 of 11

Written By Craig Colley

© 2021 Coliday Music

We can make it
If we try
We can make it
You and I

We can do it
Every day of our lives
We can do it towards
What we strive

We can make it
if we try
We can make it
You and I

Solo

We can make it
If we try
We can make it
You and I

Do You Believe It Too (with Final Refrain)

'4U' A Classic Rock Opera

Song 11 of 11

Written By Craig Colley

© 2021 Coliday Music

Could it be
That I'm wasting my life away
And I cannot speak
The words that I want to say
But I know I have
This need to get away
Its the only way to keep our love going
this way

I'm tired of feeling
That some parts of me are soon to die
Cause the love within me
Wants to shine instead of cry
So I set you free
Like a bird against the sky
While I go and find
The answer to the question why

Leaving behind
The most important part of my life
Baby, you're the one

Going away
Should relieve some of the pain
And let you enjoy
Your growing stage

I've been through it before
And I won't go through it again
Baby I will love you until the end

But I can't watch the changes
For they destroy me
Again and again

If we both realize
That we will have to wait
Till the time when we can
Completely dedicate
Our lives to each other
On that future date

If you believe this like I do
Then you have me
And I'll have you
We can both
See this through
But do you believe it to

Do you believe it
do you believe
That its true
Do you?

Enderture

(Refrain)

If you believe this like I do
Then you have me
And I'll have you
We can both
See this through

But do you believe it to
Do you believe it
Now that you know
How much I care
For you... (repeat)
